Yoksis Researcher ID: 387459

### Biography

Dr. Saeed Tasouji Hassanpour is an Assistant Professor at Istanbul Technical University's Engineering Management faculty, where he teaches courses related to operations research, operations management, logistics, and quantitative methods. He holds a Ph.D. in Management-Operations Management from the Memorial University of Newfoundland, Canada.

His main areas of interest are Operations Management, Logistics and Transportation, Vehicle Routing Problems, Hazardous Material Transportation, and Scheduling. He has also worked as a Project Manager for five years at Urmia Sugar Company, where he gained hands-on experience dealing with real-life projects and cases.

In addition to his academic and industry work, Saeed has served as a course instructor in Iran and Canada. He has lectured courses such as Decision Modeling, Operations Research, Transportation Planning, Production Planning, Probability Theory, Engineering Economics, and Time and Motion Study.

### Education Information

Doctorate, Memorial University of Newfoundland, Business Administration , Operations Management, Canada 2018 - 2022

### Research Areas

Industrial Engineering

### Published journal articles indexed by SCI, SSCI, and AHCI

- I. **Infectious waste management during a pandemic: A stochastic location-routing problem with chance-constrained time windows**
